COLUMBIA
STATE COMMUNITY
COLLEGE

Founded in 1966,
Columbia State Community
College was the first
community college
in Tennessee.

The two-year
community college serves
a nine-county area
and has approximately
5,600 students.

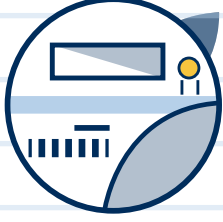

Including classrooms,
administration offices,
and athletic facilities,
the college has
26 facilities.

COLUMBIA STATE COMMUNITY COLLEGE CURRENTLY TRACKS:

57

Meters

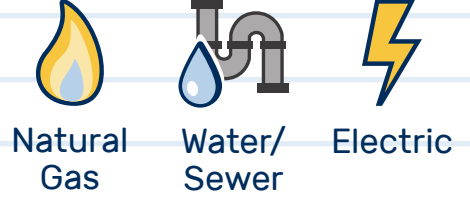

36

Bill splits

4

Commodities

CURRENT PROCESS:

Accounting
receives
bills

Bills are
entered into
a spreadsheet

Facilities Mgmt
(FM) receives
spreadsheet

FM documents
savings and
identifies issues

COLUMBIA STATE AIMS TO:

Formalize bill auditing.

Weather-normalize M&V data.

Establish greenhouse gas reporting.

EXPECTED BENEFITS FROM ENERGYCAP:

Centralized data repository;
readily accessible
college-wide

Increased accuracy of utilities
budgeting via EnergyCAP's
budget worksheet

Formal bill auditing via
EnergyCAP's audit library

Automated greenhouse gas
emissions calculations

Chargeback/rebill calculations
performed within EnergyCAP—
just one click to process

Extensive reporting and easy,
college-wide access to data
via reports and dashboards

Identify savings opportunities
with ease via audits
and benchmarking

Better M&V accuracy due to
normalization for weather,
building sq. ft. changes, etc.
